 LinkedIn

 Portfolio

Write a short introduction for your CV, start with your job title or main skill, followed by your key achievements or experiences, and then your career goals. Make sure it's concise, typically 2-3 sentences, and tailored to the role you're applying for, highlighting how your skills and experiences make you a perfect fit for the position.

Work Experience

Company Name

2022 - Present

Role at the company

- Include a concise overview of your key responsibilities, highlighting your direct impact on the organization, such as improved processes, cost savings, or revenue generation.
- Detail significant projects or initiatives you've led or contributed to, emphasizing the skills you utilized and the tangible outcomes or achievements resulting from your efforts.

Company Name

2019 - 2022

Role at the company

- Include a concise overview of your key responsibilities, highlighting your direct impact on the organization, such as improved processes, cost savings, or revenue generation.
- Detail significant projects or initiatives you've led or contributed to, emphasizing the skills you utilized and the tangible outcomes or achievements resulting from your efforts.

Company Name

2016 - 2019

Role at the company

- Include a concise overview of your key responsibilities, highlighting your direct impact on the organization, such as improved processes, cost savings, or revenue generation.
- Detail significant projects or initiatives you've led or contributed to, emphasizing the skills you utilized and the tangible outcomes or achievements resulting from your efforts.

Technical Skills

Skill 1

- Proficiency in specific design software (e.g., Adobe Creative Suite, Sketch, Figma), UX/UI design, HTML/CSS, prototyping, wireframing, etc.
- Briefly describe your level of proficiency in each skill and any notable achievements or experiences that demonstrate your abilities.

Skill 2

- Proficiency in specific design software (e.g., Adobe Creative Suite, Sketch, Figma), UX/UI design, HTML/CSS, prototyping, wireframing, etc.
- Briefly describe your level of proficiency in each skill and any notable achievements or experiences that demonstrate your abilities.

Soft Skills

Skill 1

- Look at the job description and note any soft skills mentioned. Common ones for design roles might include communication, teamwork, problem-solving, creativity, adaptability, and time management.
- Instead of merely listing your soft skills, provide brief examples that demonstrate these skills in action.

Skill 2

- Look at the job description and note any soft skills mentioned. Common ones for design roles might include communication, teamwork, problem-solving, creativity, adaptability, and time management.
- Instead of merely listing your soft skills, provide brief examples that demonstrate these skills in action.

Education

University 1

2014 - 2017

Major of Studies

Write concisely about your academic journey, focusing on how your studies have enhanced your professional skills and prepared you for your chosen career. Be sure to mention your degree, major, any minors, honors or awards you received, and how these specifically contributed to your development.

University 2

2011 - 2014

Major of Studies

Write concisely about your academic journey, focusing on how your studies have enhanced your professional skills and prepared you for your chosen career. Be sure to mention your degree, major, any minors, honors or awards you received, and how these specifically contributed to your development.
